**DETAILED ACTION**

**Reasons for Allowance**

1. The following is an examiner's statement of reasons for allowance:

The prior art that the examiner provides for the applicants do not teach a stall detection circuit for a stepper motor, said circuit having an H-bridge construction which current alternatingly flows from a first switch through first and second coils to a fourth switch, and then from a second switch through the second and first coils to a third switch, said stall detection circuit comprising an additional circuit pathway from ground to a point between the first and second coils, said additional circuit pathway conveying current away from the second coil during a monitoring phase between step sequences when closed and the fourth switch is open, said second coil during said monitoring phase detecting the back electromotive force generated by the motor in order to determine rotor condition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jimmy Nguyen whose telephone number is (571) 277- 1309.
